IV. Accounting policies

The Board of Management ensures that the company's interim Consolidated financial statements and the latest yearly Consolidated financial statements apply the same accounting policies.

1. Cash and cash equivalents

Cash and cash equivalents comprise: cash on hand, demand deposits, and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Foreign currency

- Accounts arising in foreign currencies shall be converted into Vietnam Dong according to the average transfer buying and selling exchange rates published by the Joint Stock Commercial Bank for Foreign Trade of Vietnam on the date the transactions. Exchange rate differences arising from these accounts shall be accounted for in the income statement.
- At the end of the accounting period, the carrying amounts of monetary assets and receivables and payables denominated in foreign currencies are retranslated at the average buying and selling transfer rates published by Joint Stock Commercial Bank for Foreign Trade of Vietnam. Foreign exchange differences arising from such retranslation are recognized in profit or loss. Unrealized foreign exchange gains arising from the revaluation of monetary assets and foreign currency-denominated receivables and payables are not distributable as dividends to shareholders.

2. Principles for Recognition and Depreciation of Fixed Assets

Tangible Fixed Assets:

- Principles for Recognition of Tangible Fixed Assets:** Tangible fixed assets are presented based on the principle that their residual value is equal to the acquisition cost minus accumulated depreciation. The acquisition cost of tangible fixed assets includes the purchase price and all other directly related expenses necessary to bring the asset to a ready-for-use condition.
- Depreciation Method for Tangible Fixed Assets:** Depreciation is calculated using the straight-line method.

The specific depreciation time is as follows:

	<u>Number of years</u>
Buildings and Structures	25
Transportation vehicles	4- 6
Office Equipments	4
Other assets	4-5

Intangible fixed assets:

- Intangible fixed assets are presented at cost, net of accumulated depreciation. The cost of intangible fixed assets includes the purchase price and all other directly related expenses necessary to bring the asset to a ready-for-use condition.
- The Corporation's intangible fixed asset is the reinsurance management software and software for other management activities, depreciated on a straight-line basis over its estimated useful life. The depreciation period is five years.

The Board of Management assesses that the recoverable value for the Corporation and its subsidiary from this land lot will not be lower than the carrying amount of this long-term asset. Therefore, no provision for impairment has been recognized for this receivable in the consolidated financial statements as at 30 June 2026.

6. Provision for severance allowances

In accordance with the Labour Code No. 45/2019/QH14 dated 20 November 2019 (Article 46 – Severance Allowance), employees of the Corporation who have worked regularly for full 12 months or longer, are entitled to a severance allowance. The working year used for the calculation of severance allowance is the years during which

VIETNAM NATIONAL REINSURANCE CORPORATION

7th Floor, Vinare Tower, 141 Le Duan, Cua Nam Ward,
Hanoi, Vietnam

the employee actually works for the Corporation less the years during which the employee participates in the unemployment insurance scheme in accordance with the labour regulations and the working year for which the employee has received severance allowance from the Corporation.

The severance allowance is accrued at the end of the year on the basis that each employee is entitled to half of an average monthly salary for each working year. The average monthly salary used for calculating the severance allowance is the labor contract's average salary for six months prior to the Consolidated statement of financial position date. This allowance will be paid as a lump sum when the employees terminate their labour contracts in accordance with current regulations.

The Corporation makes provisions for severance allowance for employees in accordance with the provisions of the prevailing Labor Law.

7. Technical reserves:

Technical reserves are provided in accordance with the methodologies, which are registered with and approved by the Ministry of Finance ("MoF"), and other regulations and guidance in:

- Official letter 2713/BTC-QLBH dated 12 March 2018 issued by the Ministry of Finance. The letter is effective from the financial year 2017;
- Official letter 2134/BTC-QLBH dated 22 February 2019 issued by the Ministry of Finance. The letter is effective from the financial year 2019;

On 2 November 2023, the Ministry of Finance issued Circular No. 67/2023/TT-BTC ("Circular 67") providing guidance on certain articles on the Law on Insurance Business No. 08/2022/QH15 and Decree No. 46/2023/NĐ-CP. Circular 67 includes regulations on the method of setting up technical reserves for non-life insurance companies. In accordance with the assessment of the Corporation, the current method and basis for setting up technical reserves following Official Letters 2713 and 2134 are still appropriate and compliant with Circular 67. The Corporation submitted Official Letter No. 276/VNR-2023 dated 27 December 2023, reporting to the Insurance Supervisory Authority - Ministry of Finance, stating that the Corporation shall continue to apply the approved methods of setting up technical reserves as stated in the aforementioned Official Letters 2713 and 2134.

On 31 December 2025, the Corporation submitted Official Letter No. 178/VNR-2025 proposing the Ministry of Finance to approve the existing methods and approaches for calculating insurance technical provisions currently applied, and to adjust the referenced legal basis for the methods of establishing and calculating insurance technical provisions in accordance with the prevailing regulations.

On 22 January 2026, the Ministry of Finance issued Official Letter No. 844/BTC-QLBH, in which the Ministry acknowledged VINARE's proposal regarding the change of the referenced legal basis for the methods of establishing insurance technical provisions and the methods and approaches for calculating the Corporation's insurance technical provisions as stated in Official Letter No. 178/VNR-2025 mentioned above.

The Corporation's reserves include:

a. Unearned premium reserves

Non-life reinsurance

Provision for unearned premium reserves for inward and outward reinsurance is calculated on the total inward/outward reinsurance premium as follows:

Type of contract	Term of reinsurance contract	
	1 year or less	Over 1 year
Cargo insurance (road, sea, inland waterways, rail and air)	25%	55%
Other lines of business	50%	55%

VIETNAM NATIONAL REINSURANCE CORPORATION

7th Floor, Vinare Tower, 141 Le Duan, Cua Nam Ward,
Hanoi, Vietnam

Life reinsurance

- For a reinsurance contract with a term of one year or less, the Corporation applies a prorated method equal to 50% of the total premium in the fiscal year for each life reinsurance contract.
- For reinsurance contracts with a term of more than one year with the payment term of less than one year, renewed annually and signed before the effective date of Circular 50/2017/TT-BTC, the Corporation applies the calculation method at the rate of 50% of the total premium in the fiscal year for each life reinsurance contract.
- For reinsurance contracts with a term of more than one year and signed after the effective date of Circular 50/2017/TT-BTC, the Corporation calculates mathematical reserves in accordance with applicable regulations.

Health reinsurance

- For reinsurance contracts with terms of 1 year or less, the Corporation applies a method of setting up reserves based on a ratio of 50% of the total insurance premiums for each health reinsurance contract.
- For reinsurance contracts with terms longer than 1 year, the Corporation applies a technical reserve-setting method as presented in disclosure 4(e).

b. Claim reserves

- Claims reserves for the losses that were incurred, notified but not yet settled ("OSLR") at the end of the financial period are provided for each insurance loss based on the estimated claim payable which has been notified or submitted but not yet settled as at the reporting date.
- Claims reserves for the losses incurred but not notified and/or reported ("IBNR") are provided for at 5% of the total aggregated inward/outward reinsurance premium for each line of business.

c. Catastrophe reserves

This reserve is made at a rate of 1% of the retained premium for each insurance line until it reaches 100% of the retained premium in the year.

d. Equalisation reserves

Equalisation reserves are made for each type of reinsurance as follows:

- Healthcare reinsurance: this reserve is made at 1% of the retained premium for all transactions until it reaches 100% of the retained premium in the year.
- Life reinsurance: this reserve is made at 1% of the profit before tax until it reaches 5% of the life inward premium received in the year.

On 28 December 2005, the Ministry of Finance issued Decision 100/2005/QD-BTC governing the publication of four (4) new accounting standards, one of which is the Vietnamese Accounting Standard ("VAS") 19 - Insurance Contracts. In accordance with this Standard, provision for equalisation reserves is not required since it represents "claims on insurance contracts which do not exist as at the reporting date". However, the Corporation continues to calculate catastrophe reserves and equalisation reserves to compensate for large fluctuations in losses as well as significant fluctuations in risk ratios and technical interest rates, as stated in Official Letters 2713 and 2134, which have been approved by the Ministry of Finance.

e. Mathematical reserves

For health reinsurance contracts with contract terms of more than 1 year, the mathematical reserve is made as follows:

VIETNAM NATIONAL REINSURANCE CORPORATION

7th Floor, Vinare Tower, 141 Le Duan, Cua Nam Ward,
Hanoi, Vietnam

- For health reinsurance contract (except health reinsurance contracts that cover only death, and permanent total disability):
 - For reinsurance contracts with contract terms of more than 1 year: Apply the calculation method using the 1/8 method;
 - For reinsurance contracts with terms of more than 1 year but a payment term of less than 1 year, renewed annually: Apply the calculation method at the rate of 50% of the total premium of the fiscal year. In all cases, the Corporation must ensure that the result of the calculation is not lower than the 1/8 method.
- For health reinsurance contracts that cover only death and permanent total disability, the Corporation applies the method of daily pro-rata provision according to the general formula as follows:

$$\text{Unearned premium reserves} = \frac{\text{Insurance premium} \times \text{Number of unexpired days of the insurance policy or reinsurance agreement}}{\text{Total days of the insurance policy or reinsurance agreement}}$$

As at the date of preparation of the financial statements, the Corporation made additional provisions for loss-making health insurance operations in the amount of VND 5,576,896,254 and reversed provisions for loss-making life insurance operations in the amount of VND 13,342,117. These balancing provisions were recognised by the Corporation under Provision for Catastrophe reserves and are monitored separately.

Provisions for the inward and outward business are presented separately in the statement of financial. Accordingly, unearned premium reserves for inward reinsurance and claim reserves for inward reinsurance, as well as catastrophe reserves, are reflected as liabilities; unearned premium reserves for outward reinsurance and claim reserves for outward reinsurance are reflected as reinsurance assets.

8. Principles for recording provision for diminution in value of securities investment and provision for bad debts**a. Provision for diminution in value of securities investment**

Following the guidance in Circular No. 48/2019/TT-BTC issued by the Ministry of Finance on August 8, 2019, the Corporation is permitted to make provisions for investments in freely exchangeable securities where the book value is higher than the market value at the end of the accounting period.

b. Receivables and Provision for doubtful debts

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value minus provision for doubtful debts.

The Corporation shall make provisions for doubtful debts following the Circular 48/2019/TT-BTC of the Ministry of Finance issued on 08/08/2019 as follows:

Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

The calculation of the provision for each overdue debt is specified in Circular 48/2019/TT-BTC.

- For accounts receivable (the balance after offsetting with payables to the same counter party) overdue from 06 months to less than one year, the provision is made at the rate of 30%;
- For accounts receivable (the balance after offsetting with payables to the same counter party) overdue from 1 year to less than 2 years, the provision is made at the rate of 50%;
- For accounts receivable (the balance after offsetting with payables to the same counter party) overdue from 2 years to less than 3 years, the provision is made at the rate of 70%;
- For accounts receivable (the balance after offsetting with payables to the same counter party) overdue from 3 years, the provision is made at the rate of 100%.

9. Recognition of equity capital:**a. Parent Company**

Owners' capital is the paid-up capital of the shareholders, which is monitored by each shareholder;

Share premium: the amount of money received from the share issuance in 2007 which is greater than the value of shares issued plus the issuance costs.

VIETNAM NATIONAL REINSURANCE CORPORATION

10. Revenue and expenses recognition:

Reinsurance inward revenue is recognised following the statement of accounts agreed by the Corporation and the cedant. Reinsurance outward revenues and payables are recognised in accordance with respective inward revenues and payables in the same accounting period. Such recognition is in conformity with regulations of the financial regime applicable to insurance enterprises.

Income from stock investments is recognised upon a notification of profit-sharing released by the investee. Interest income from deposits, public bonds, bank debentures, government bonds, and loans are recognised on accrued basis.

Income from office leasing is recognised when incurred.

11. Taxation:

Income tax expense represents the sum of the currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income that are not taxable or expenses that are deductible in the calculation of taxable income.

Deferred corporate income tax is recognized for all temporary differences and deferred corporate income tax asset is only recognized when it is certain that there is sufficient profit for the calculation of tax in the future to deduct the temporary differences.

The calculation of tax duties of the Corporation is based on current taxation regulations. However, these regulations change over periods of time and the Corporation's final tax duties depends on the results of the tax authority's audit inspection.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

V. Other information

1. According to Decision No. 315/QĐ-TTg, pilot agricultural insurance activities ended on 31 December 2013. The Corporation has been conducting procedures to finalize this activity with the Ministry of Finance. The final decision on the results of the Corporation's pilot agricultural insurance activities will depend on the approval of the Ministry of Finance.
2. On 7 July 2014, the Government issued Decree No. 67/2014/ND-CP on some fisheries development policies, including regulations on insurance policy for offshore fishing boats. The Corporation undertakes this type of insurance, along with the local insurance companies, to support the market and implement the targets, and policies of the Government.

VIETNAM NATIONAL REINSURANCE CORPORATION

7th Floor, Vinare Tower, 141 Le Duan, Cua Nam Ward,

On 20 August 2014, the Ministry of Finance issued Circular No. 116/2014/TT-BTC providing guidance on several financial issues to insurance activities as stipulated in Decree No. 67/2014/ND-CP on fisheries development policies. According to provisions under Circular No. 116/2014/TT-BTC, business results of offshore fishing boat insurance shall be included in the insurer's results. The insurance enterprise shall hold the responsibility to separately monitor revenues, expenses, and business results of this insurance type. Profit from insurance activities (if any) shall be recorded to catastrophe reserves at the financial year-end.

On 11 November 2020, the Ministry of Finance issued Circular No. 89/2020/TT-BTC to replace Circular No. 116/2014/TT-BTC dated August 20, 2014 of the Ministry of Finance, which provided guidance on certain financial issues for insurance companies conducting insurance products in accordance with Decree No. 67/2014/ND-CP dated July 7, 2014 by the Government on certain policies for fisheries development, as well as Circular No. 43/2016/TT-BTC dated March 3, 2016 of the Ministry of Finance on amendments to Article 5 of Circular No. 116/2014/TT-BTC dated August 20, 2014. Circular 89/2020/TT-BTC took effect on January 1, 2021. Accordingly, as of January 1, 2021, the financial policy applicable to the offshore insurance conducted by the Corporation is implemented similarly to other lines of business.
