NOTES TO THE SEPARATE FINANCIAL STATEMENTS
Quarter 3 2026
ended 30 September 2026

I. General information

1. Form of capital ownership: Vietnam National Reinsurance Corporation ("the Corporation") is established and operates under the Establishment and Operation Licence No. 28/GP/KDBH dated 15 November 2004 issued by the Ministry of Finance. The Establishment and Operation Licence has been amended several times and the latest amendment No. 28/GPDC9/KDBH was issued on 15 September 2026 by the Ministry of Finance, the Corporation's charter capital to VND 2,106,612,740,000.

Since 13 March 2006, all shares of the Corporation have been listed on Hanoi Stock Exchange (Stock code: VNR)

The total number of employees of the Corporation as at September 30, 2026: 99 employees (as at December 31, 2025: 102 employees).

2. Operating Industry: Insurance

3. Lines of business

The Corporation's operating industry and principal activities include:

- Reinsurance business; and
- Financial investment business

4. Normal business cycle: The normal business cycle of the Corporation is 12 months.

5. Business structure

As at 30 September 2026, the Corporation had one subsidiary and one associate. The details are as follows:

	Principal activities	Place of incorporation and operation	Proportion of ownership interest	Proportion of voting right held
Subsidiary				
Vinare Investment Joint Stock Company ("Vinare Invest")	Investment	Hanoi, Vietnam	64.23%	64.23%
Associate				
Samsung Vina Insurance Corporation Limited	Insurance	Ho Chi Minh, Vietnam	25%	25%

6. Explanation of the comparability of information in the Separate financial statements

The comparative figures on the Statement of financial position and related notes are the figures on the audited separate financial statements for the fiscal year ended December 31, 2025.

The comparative data on the income statement and the cash flow statement are based on the separate financial statements of the interim separate financial statements for the nine-month accounting period ended 30 September 2025.

II. Accounting periods, monetary units used in accounting

1. Accounting period: The Corporation's financial year begins on 01 January and ends on 31 December.
2. Accounting currency: Vietnam Dong ("VND" or "Dong").

III. Accounting standards and system

1. Accounting system

The accounting policies adopted by the Corporation in preparing these financial statements have been applied consistently with those used in preparing the financial statements for the financial year ended 31 December 2025, except for changes in accounting policies arising from the adoption of Circular No. 99/2025/TT-BTC providing guidance on the Accounting Regime for Enterprises, as described below:

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC guiding the Accounting Regime for Enterprises ("Circular 99"), replacing Circular No. 200/2014/TT-BTC on the Accounting Regime for Enterprises issued by the Ministry of Finance on 22 December 2014 and certain other relevant regulations. Circular 99 became effective on 1 January 2026 and applies to enterprises whose financial years commence on or after 1 January 2026.

The Corporation adopted Circular 99 effective from 1 January 2026. The Corporation assessed the impact of the change in the accounting regime under Circular 99 on its existing accounting policies, as well as on the recognition, measurement, and presentation of items in the interim financial statements. Based on this assessment, the Corporation adjusted and reclassified the opening balances of certain items in the interim separate financial statements in accordance with the requirements of Circular 99 to ensure comparability.

2. Statement on compliance with accounting standards and accounting system: The Board of Management ensures that the company's Financial Statements comply with Vietnamese accounting standards and the Vietnamese accounting system applicable to insurance enterprises and other prevailing accounting regulations in Vietnam.

3. Accounting form: General Journal

IV. Accounting policies

The Board of Management ensures that the company's interim separate financial statements and the latest yearly separate financial statements apply the same accounting policies.

1. Cash and cash equivalents

Cash and cash equivalents comprise: Cash and cash equivalents comprise cash on hand, demand deposits, cash in transit and short-term, highly liquid investments (not exceeding 3 months) that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and are not restricted in use.

Foreign currency:

- Transactions denominated in foreign currencies are translated into VND at the average transfer buying and selling exchange rates quoted by the Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank) at the transaction dates. Exchange differences arising from these transactions are recognized as income or expenses in the separate statement of income.

- At the end of the operating period, monetary assets and foreign currency-denominated receivables and payables are retranslated at the average transfer buying and selling exchange rates quoted by the Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank). Exchange differences arising from such retranslation are recognized in the statement of income. Unrealized foreign exchange gains resulting from the retranslation of monetary assets and foreign currency-denominated receivables and payables are not available for distribution as dividends to shareholders.

2. Principles for Recognition and Depreciation of Fixed Assets

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The original costs of tangible fixed assets comprise of their purchase prices and any directly attributable costs of bringing the assets to the location and condition ready for use in the manner intended by management.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	Years
Buildings and structures	25
Motor vehicles	4 - 6
Office equipment	4
Others	4 - 5

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between the net proceeds from sales or disposals of assets and their carrying amount and is recognised in the interim separate income statement.

Intangible assets and amortisation

The costs of intangible assets comprise all expenditures incurred by the Company to acquire such assets up to the point at which the asset is in a condition ready for use in the manner intended by management.

Intangible assets represent accounting software, management software, and copyrights of other software (collectively referred to as "computer software"). Computer software is amortized using the straight-line method over the estimated useful lives. Specifically, the depreciation period for software is 5 years.

3. Balance of cash and financial investment

3.1 Cash and cash equivalents

	30/9/2026	31/12/2025 (Restated)
	VND	VND
Cash on hand	973,609,014	1,033,405,931
Bank deposits	54,078,804,471	2,643,653,974
Cash equivalents	-	51,001,397,260
Total	**55,052,413,485**	**54,678,457,165**

3.2 Short- term financial Investments

	30/9/2026	31/12/2025 (Restated)
	VND	VND
Bank Deposits with short -term tenors	3,524,535,335,619	3,284,892,841,091

e) Provision for impairment of long-term investments in other entities: This represents the provision for impairment of the equity investment in Hung Vuong Insurance Corporation.

(f) Provision for impairment of long-term financial investments: Represents provisions for impairment of investments entrusted to Vietcombank Fund Management Company Limited ("VCBF"), SSI Asset Management Company Limited ("SSIAM"), and Bao Viet Fund Management Company Limited ("BVF").

4. Provision for severance allowances

In accordance with Article 46 (Severance Allowance) of the Labour Code No. 45/2019/QH14, which was passed by the National Assembly of the Socialist Republic of Vietnam (14th Legislature) on 20 November 2019, employees of the Corporation who have worked regularly for full 12 months or longer, are entitled to a severance allowance. The period of service used for the calculation of severance allowances is the total period during which employees have actually worked for the Corporation, less the period during which they participated in unemployment insurance scheme in accordance with applicable regulations and the period for which severance allowances have already been paid by the Corporation.

The severance allowance is accrued at the rate of one-half of an employee's average monthly salary for each year of service. The average monthly salary used for calculating the severance allowance is the labor contract's average salary for six months prior to the interim separate financial position date. This allowance will be paid as a lump sum when the employees terminate their labour contracts in accordance with current regulations.

The Corporation makes provisions for severance allowance for employees in accordance with the provisions of the prevailing Labor Law.

5. Technical reserves:

Technical provisions are established using methods which have been registered and approved by the Ministry of Finance and guided in:

- Official letter 2713/BTC-QLBH dated 12 March 2018 issued by the Ministry of Finance (Official letter 2713). The letter is effective from the financial year 2017;
- Official letter 2134/BTC-QLBH dated 22 February 2019 issued by the Ministry of Finance (Official letter 2134). The letter is effective from the financial year 2019

On 02 November 2023, the Ministry of Finance issued Circular 67/2023/TT-BTC ("Circular 67") guiding a number of articles of the Law on Insurance Business No. 08/2022/QH15 and Decree No. 46/2023/ND-CP issued on 1 July 2023, providing detailed guidance on the implementation of certain articles of the Law on Insurance Business. Circular 67 provides regulations on the method of setting aside technical reserves for non-life insurance enterprises. According to the Corporation's assessment, the current method and basis for setting aside technical reserves according to Official letter 2713 and 2134 are still consistent and compliant with the provisions of Circular No. 67/2023/TT-BTC issued on 02 November 2023 guiding a number of articles of the Law on Insurance Business No. 08/2022/QH15 and Decree 46/2023/ND-CP. The Corporation has submitted Official letter No. 276/VNR-2023 dated 27 December 2023 to the Department of Insurance Management and Supervision - Ministry of Finance on continuing to apply the methods of reserve setting up approved in Official letters 2713 and 2134 mentioned above.

On 31 December 2025, the Corporation submitted Official Letter No. 178/VNR-2025 proposing the Ministry of Finance to approve the existing methods and approaches for calculating insurance technical provisions currently applied, and to adjust the referenced legal basis for the methods of establishing and calculating insurance technical provisions in accordance with the prevailing regulations.

On 22 January 2026, the Ministry of Finance issued Official Letter No. 844/BTC-QLBH, in which the Ministry acknowledged VINARE's proposal regarding the change of the referenced legal basis for the methods of establishing insurance technical provisions and the methods and approaches for calculating the Corporation's insurance technical provisions as stated in Official Letter No. 178/VNR-2025 mentioned above..

The Corporation's reserves include:

a. Unearned premium reserves

Non-life reinsurance

Provision for unearned premium reserves for inward and outward reinsurance is calculated on the total inward/outward reinsurance premium as follows:

Type of contract	Term of reinsurance contract	
	1 year or less	Over 1 year
Cargo insurance (road, sea, inland waterways, rail and air)	25%	55%
Other lines of business	50%	55%

Life reinsurance

For reinsurance contract with a term of one year or less, the Corporation applies a prorated method equal to 50% of the total premium for each life reinsurance contract.

In the event that the Corporation enters into reinsurance contracts for life insurance with terms longer than 1 year, the Corporation shall set up mathematical reserves detail in *"Mathematical reserve"*.
Health reinsurance

For reinsurance contracts with terms of 1 year or less, the Corporation applies a method of setting up unearned premium reserves based on a ratio of 50% of the total insurance premiums accounted for each health reinsurance contract.

For reinsurance contracts with terms longer than 1 year, the Corporation shall set up mathematical reserves detail in "Mathematical reserve".

b. Claim reserves

- Claims reserves for the losses which were incurred, notified but not yet settled ("Outstanding losses") at the end of the operating period are provided for each insurance loss based on the estimated claim payable which has been notified or submitted but not yet settled as at the reporting date.

- For incurred but not reported (IBNR) losses, the Corporation makes claim reserve for inward reinsurance at the rate of 5% of the inward reinsurance premium for each insurance line, claim reserve for outward reinsurance at the rate of 5% of the outward reinsurance premium for each insurance line.

c. **Catastrophe reserves:** Catastrophe reserve is made at a rate of 1% of the retained premium for each insurance line until it reaches 100% of the retained premium for the corresponding line.

d. **Equalisation reserves**

Provision for equalization reserves are set aside for each type of reinsurance as follows:

- Health-care reinsurance: this reserve is made at 1% of the retained premium for all transactions until it reaches 100% retained premium.
- Life reinsurance: this reserve is made at 1% of the profit before tax until it reaches 5% of the life inward premium received during the period.

In accordance with Vietnamese Accounting Standard No. 19 "Insurance Contract", reserve to cover the losses in the future of which the claims are neither incurred nor exist at the financial position date (including catastrophe reserve) is deemed unnecessary. However, the Corporation continues to set up catastrophe and equalization reserves to compensate for large fluctuations in losses as well as significant fluctuations in risk ratios and technical interest rates, as stated in Official Letters 2713 and 2134, which have been approved by the Ministry of Finance.

e. **Mathematical reserves**

For health reinsurance contract with contract term of more than one year, the mathematical reserve is made as follows:

For health reinsurance contract (except health reinsurance contract that cover only death, permanent total disability):

- For reinsurance contract with contract term of more than one year: Apply the calculation method using the 1/8 method;
- For reinsurance contract with a term of more than one year but the payment term of less than one year, renewed annually: Apply the calculation method at the rate of 50% of the total premium. In all cases, the Corporation must ensure that the result of the calculation is not lower than the 1/8 method.

For health reinsurance contracts that cover only death, permanent total disability, the Corporation applies the method of daily pro-rata basis according to the general formula as follows:

$$\text{Unearned premiums reserves} = \frac{\text{Insurance premium x Number of unexpired days of insurance policy or reinsurance agreement}}{\text{Total days of insurance policy or reinsurance agreement}}$$

As at the date of preparation of the financial statements, the Corporation made additional provisions for equalization reserves for health insurance operations in the amount of VND 7,854,519,544 and reversed provisions for equalization reserves for life insurance operations in the amount of VND 20,308,850. These balancing provisions were recognised by the Corporation under Provision for Catastrophe reserves and are monitored separately.

Provisions for the inward and outward business are presented separately in the statement of financial. Accordingly, unearned premium reserves for inward reinsurance and claim reserves for inward reinsurance, as well as catastrophe reserves, are reflected as liabilities; unearned premium reserves for outward reinsurance and claim reserves for outward reinsurance are reflected as reinsurance assets.

Technical reserves:

❖ ***Premium reserves, claim reserves for inward reinsurance, catastrophe reserves***

6. Principles for recording provision for diminution in value of securities investment and provision for bad debts

a. Provision for investments in subsidiaries, associates and other entities

Provision for investments in subsidiaries, associates and other entities is made when there is a diminution in value of the investments at the period end.

Provision for investments in subsidiaries, associates is calculated based on the loss of investees, based on the latest financial statements of investees.

Provision for investments in other entities is calculated based on fair market value if fair market value can be determined reliably. If fair market value cannot be determined reliably, the provision is calculated similarly to provision for investments in subsidiaries, associates.

Changes in the provision balance at the end of the period are recorded as an increase or decrease in financial expenses during the period. A reversal, if any, is made only to the extent the investment is restored to its original cost.

b. Receivables and Provision for doubtful debts

Receivables represent trade receivables from customers, other trade receivables and other receivables which are classified based on their nature as follows:

- Reinsurance receivables are trade receivables arising from reinsurance transactions including premiums receivable from reinsureds, claim recoveries from reinsurers, insurance commission receivables from reinsurers at the period end;
- Other trade receivables are receivables arising from sales and providing services other than insurance transactions; and
- Other receivables are non-trade receivables and receivables not relating to providing services.

Provision for doubtful debts is made for each outstanding amount based on overdue days in payment according to the initial payment commitment (exclusive of the payment rescheduling between parties), or based on the estimated loss that may arise. When making provision for a bad debt of a debtor who has both receivables and payables, based on the record of debt reconciliation sent to customers, the Corporation shall make provision for the remaining amount after offsetting the payables of its debtor. Bad debts are handled according to corresponding local regulations when identified as uncollectible.

Receivables are classified into long-term and short-term receivables on the interim separate financial position based on the remaining period from the separate financial position date to the maturity date.

7. Recognition of equity capital:

Ordinary shares

Ordinary shares with voting rights are recognised at par value. Shares issued to increase charter capital or shareholders' contributed capital are recognised based on the actual proceeds received corresponding to the par value of successfully issued shares.

Share premium

Share premium represents the difference between the par value and the issuance price of ordinary shares, net of costs directly attributable to the share issuance.

Costs directly attributable to the share issuance are allocated between successfully issued shares and unsuccessfully issued shares as follows:

- The portion allocated to successfully issued shares is offset against share premium.
- The portion related to unsuccessfully issued shares is recognised as financial expenses for the period.

As of September 30, 2026, the total actual capital contributed by shareholders and the capital surplus is as follows:

	Paid-in capital			
	As at 30/9/2026		As at 31/12/2025	
	Stake	VND	Stake	VND
Owner's equity		**2,106,612,740,000**		**2,006,302,480,000**
State Capital Investment Corporation	40.36%	850,296,520,000	40.36%	809,806,210,000
Swiss Re	25.00%	526,657,430,000	25.00%	501,578,510,000
Other shareholders	34.64%	729,658,790,000	34.64%	694,917,760,000
Share premium		**369,756,607,309**		**369,756,607,309**
		2,476,369,347,309		**2,376,059,087,309**

8. Revenue and expenses recognition:

Reinsurance premiums are recognised as revenue at the point of time when both of the following two (2) conditions are met:

- The insurance contract has been entered into by the Corporation and the reinsured; and
- Statement of accounts of reinsurance transactions is confirmed between the Corporation and the reinsured.

This recognition is carried out in accordance with the regulations in Circular 67/2023/TT-BTC.

For excess of loss reinsurance contract which has reinstatement provision, the Corporation recognises reinstatement premium. This is the amount the reinsured must pay the reinsurer to restore the coverage up to the contract's original limit. The basis for recognition of reinstatement premium is the statement of accounts confirmed between the Corporation and the reinsured for the losses which have been compensated for. At the end of the period, the Corporation accrues reinstatement premium income corresponding to the reserve for outstanding claims.

Commission income from outward reinsurance and other income from reinsurance activities are recorded on accrual basis. In the period, the entire commission income from outward reinsurance premium under outward reinsurance contracts signed in accordance with regulations of the financial regime is presented in the "Commission income from outward reinsurance" item.

At the end of the operating period, the Corporation need to determine the deferred reinsurance commission revenue corresponding to the unearned reinsurance premium in the period to transfer to the following operating period corresponding to the above premium reserve calculation method.

Other revenue

Interest income

Interest income is recognised in the income statement on the basis of the actual time and interest rates for each period when both (2) of the following conditions are satisfied:

- It is probable that economic benefits associated with the transaction will flow to the Corporation; and
- Income can be measured reliably.

Dividend income

Income from dividends is recognised when the Corporation has established the receiving right from investees.

9 . Taxation:

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the period. Taxable profit differs from profit before tax as reported in the interim income statement because it excludes items of income or expense that are taxable or

deductible in other periods (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the interim financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using financial position liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Corporation intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

V. Other information

1. According to Decision No. 315/QD-TTg, pilot agricultural insurance activities ended on 31 December 2013. The Corporation has been conducting procedures to finalize this activity with the Ministry of Finance. The final decision on the results of the Corporation's pilot agricultural insurance activities will depend on the approval of the Ministry of Finance.

2. On 7 July 2014, the Government issued Decree No. 67/2014/ND-CP on some fisheries development policies, including regulations on insurance policy for offshore fishing boats. The Corporation undertakes this type of insurance, along with the local insurance companies, to support the market and implement the targets, and policies of the Government.

   On 20 August 2014, the Ministry of Finance issued Circular No. 116/2014/TT-BTC providing guidance on several financial issues to insurance activities as stipulated in Decree No. 67/2014/ND-CP on fisheries development policies. According to provisions under Circular No. 116/2014/TT-BTC, business results of offshore fishing boat insurance shall be included in the insurer's results. The insurance enterprise shall hold the responsibility to separately monitor revenues, expenses, and business results of this insurance type. Profit from insurance activities (if any) shall be recorded to catastrophe reserves at the financial year-end.

   On 11 November 2020, the Ministry of Finance issued Circular No. 89/2020/TT-BTC to replace Circular No. 116/2014/TT-BTC dated August 20, 2014 of the Ministry of Finance, which provided guidance on certain financial issues for insurance companies conducting insurance products in accordance with Decree No. 67/2014/ND-CP dated July 7, 2014 by the Government on certain policies for fisheries development, as well as Circular No. 43/2016/TT-BTC dated March 3, 2016 of the Ministry of Finance on amendments to Article 5 of Circular No. 116/2014/TT-BTC dated August 20, 2014. Circular 89/2020/TT-BTC took effect on January 1, 2021. Accordingly, as of January 1, 2021, the financial policy applicable to the offshore insurance conducted by the Corporation is implemented similarly to other lines of business.

(i) An appropriation to the Development Investment Fund the amount of VND 190,458,498,831 in accordance with Resolution No. 12/2026/NQ- ĐHĐCĐ dated 23 April 2026 of the General Meeting of Shareholders of the Corporation.

(ii) The statutory reserve fund is appropriated from profit after corporate income tax at a rate of 5% until it reaches 10% of charter capital, in accordance with Article 54 of Decree No. 46/2023/ND-CP dated 1 July 2023 issued by the Government.

(iii) In accordance with Resolution No. 06/2013/NQ-ĐHĐCĐ dated April 25, 2013 of the General Meeting of Shareholders of the Corporation, the Bonus and Welfare fund appropriation is equal to the amount of VND 9,810,345,713. The final decision on the distribution of profit for 2026 is subject to the approval of the General Meeting of Shareholders.

(iv) In accordance with Resolution No. 12/2026/NQ-ĐHĐCĐ dated April 23, 2026 of the General Meeting of Shareholders, the General Meeting of Shareholders approved 2025 dividend distribution in cash at the rate of 10%, which is equivalent to VND 200,630,248,000.

(v) Also pursuant to Resolution No. 12/2026/NQ-ĐHĐCĐ, the General Meeting of Shareholders of the Corporation approved the plan to pay dividends for the year 2025 in shares to existing shareholders at a rate of 5%.

On July 24, 2026, the Board of Directors of the Corporation issued Resolution No. 21/2026/QĐ-HĐQT regarding the record date for the list of shareholders to implement the issuance of shares for 2025 dividend payment, and on August 14, 2026, issued Resolution No. 23/2026/QĐ-HĐQT approving the results of the share issuance for dividend payment.
On August 18, 2026, the State Securities Commission issued Official Letter No. 7993/UBCK-QLCB regarding the report on the results of VINARE's share issuance for dividend payment, and on August 26, 2026, the Vietnam Securities Depository and Clearing Corporation issued Document No. 11283/VSDC-ĐKCP.NV regarding the issuance of a certificate adjusting the registered share information for VINARE's stock code. The total number of additionally issued shares was 10,031,026 shares, equivalent to VND 100,310,260,000.

On September 18, 2026, the Ministry of Finance issued an Amended License No. 28/GPĐC9/KDBH, with the new charter capital of the Corporation after the capital increase being VND 2,106,612,740,000.

4. Restatement of certain opening balances in accordance with Circular No. 99/2025/TT-BTC

During the period, the Corporation reclassified accrued interest receivables from term deposits and bonds to short-term and long-term held-to-maturity investments and several items in income statement in accordance with Circular No. 99/2025/TT-BTC issued by the Ministry of Finance on 27 October 2025.

Remuneration of the Key management Personnel

	Current period	Prior period
	VND	VND
Remuneration, salary, bonus for key management personnel (*)	13,053,375,941	11,630,265,502
	13,053,375,941	**11,630,265,502**

(*) The compensation for key management personnel in the interim separate financial statements is calculated in accordance with the Corporation's profit in the nine-month period ended 30 September 2026. This figure is finalized and adjusted in the annual financial statements based on the Corporation's actual financial performance for the financial year ending 31 December 2026.
